An official announcement has been sent from Ottawa to the Manitoba government that the separate school act will be allowed to go into operation, although its constitutionality is doubtful. This can be tested in the courts. Acts respecting contagious diseases of animals and extra-provincial corporations are disallowed.

Tupper, Thompson and Foster, Canadian delegates to confer with Blaine regarding reciprocity arrived in Washington on Sunday, as per arrangement. They were informed on Monday that president Harrison desired to take part in the negotiations but as he was leaving for trip to the Pacific coast in a few days they must be postponed until his return. Tupper immediately left for England and the others for Ottawa.

A collective pastoral letter signed by Cardinal Taschereau, Archbishop Duhamel of Ottawa, Archbishop Fabre of Montreal and eight bishops was read in all the churches in the ecclesiastical province of Quebec on Sunday denouncing the Manitoba act abolishing separate schools, and calling upon Roman Catholics to unite to secure the rights of their compatriots in Manitoba. The pastoral describes the legislation as an underhand and diabolical attack upon the rights of the church.

Three conservative members of the Prince Edward Island legislature, who resigned to

run for the commons and were defeated failed to secure re-election yesterday. This result ensures the defeat of the conservative local government which only had a majority of one.

Resolutions were introduced into the Ontario legislature yesterday praying the imperial parliament for legislation abolishing separate schools.

A FEW nights ago W. Fielders tied a valuable young horse to a wagon outside his stable, as the stable was required for working teams. During the night the horse caught one of its hind feet in its halter, and threw itself. In its efforts to get up it injured its head very severely on the hub of the wagon wheel, and may not recover.

S. S. TAYLOR received from police commissioner Herchmer by last stage a full blooded fox hound about ten months old, the only one in the district. Mr. Taylor intends to use the dog in deer hunting. Unfortunately while coming in on the stage, when near Wolf Creek, the dog jumped off and was caught under the wheels, which broke one of his hind legs and dislocated the joint as well. He is likely to recover, however.

THOSE persons who have not seen the Dominion Illustrated since it has been so much enlarged and improved should secure a sample copy at once. Both from the literary and artistic point of view the Illustrated is a credit to Canadian journalism. The prize competition, which has been inaugurated with the double purpose of conferring benefit on readers and publishers, consists in finding in current numbers of the journal the answers to thirty-six questions, six of which are published every month. The prizes aggregate over \$3,000 in value. There are 100 in all, the lowest being valued at \$5. The first is \$750 in gold. On receipt of 12 cents in stamps the publishers (the Sabiston Litho. & Pub. Co., Montreal), will send to any address a sample copy with full particulars.

S. B. CULBERT who was employed in the BULLETIN office in 1887-8 has been in the Toronto general hospital for some months past taking the Koch treatment for consumption. The disease was thoroughly developed before his entrance into the hospital, but was not in a very advanced stage. He writes on March 23rd that there are now good hopes of his recovery he having gained 100 pounds in weight and considerably in strength since admission to the hospital. This case is progressing the best of any in the hospital under the new treatment. Consumption is unknown amongst whites in the Edmonton district, and although Mr. Culbert was constitutionally consumptive he would never have required the Koch treatment had he remained here. People who have lived here for a few years forget what a scourge consumption is in the Eastern provinces and do not always remember the blessing of living in such a healthy climate.

SHOOTING MATCH.

A PRACTICE shooting match was held on Saturday last by members of the Rod and Gun Club. Sides were chosen by J. Looby and Inspector Piercy. The following is the score:

| | | | |
|--------------|----|----------------|----|
| John Looby | 2 | Insp. Piercy | 6 |
| Jas. Inkster | 7 | Jas. Goodridge | 4 |
| John Brown | 4 | Luke Kelly | 5 |
| R. Hardisty | 4 | S. S. Taylor | 4 |
| | 17 | | 19 |

Glass balls sprung from a trap were used for the first shots and tin cans for the rest. Each competitor had 10 shots. The next match will be held on the 14th at 2.30 p. m.

FIRE.

ON Sunday morning at an early hour the blacksmith shop of John Hourston, near Norris and Carey's store was seen by some Indians camped near there to be on fire. Mr. Hourston who lives near by was aroused, but the fire had already reached a pitch that prevented any of the contents of the building from being saved. Besides the building and tools, a number of valuable articles of clothing which were stored in the shop were burned. The total loss will reach \$1,500. Mr. Hourston only came to Edmonton and started business last fall, and therefore the loss falls very heavily upon him. He is so well satisfied however with the business and prospects of the place that already he has a new shop nearly erected on the old site and will be ready for business next week. He has no idea of how the fire originated. He was working in the shop until a late hour on Saturday night, and of course left some live coals in the forge. The fire must have started from this. No insurance.

EDMONTON BULLETIN, APRIL 11 1891.

THE ASSEMBLY.

People who read the Calgary Herald last fall during the session of the Northwest legislature and who took the trouble to note its remarks on the chief question then before the assembly, will be surprised to see by its issue of April 1st that it now concurs in the views which it then denounced the members of the assembly for holding. The Herald says that the people of the Territories, that is to say the editor of the Herald, will favor parliament granting a lump sum for maintenance of certain services, this vote not to lapse at the end of the fiscal year and to be an annual fixed sum for say three years, to be subject to the vote of the Northwest legislature, and to be applicable for such services as the following for instance: Schools, roads and bridges, clerical assistance, salaries of court house caretakers, printing and advertising, hospitals, maintenance insane, immigration, legal expenses, library, maintenance of boring machines, etc. They will expect that the sum so voted to the Territorial legislature shall allow of educational expenditures being not less liberal than they are at present, and much more to the same effect. The Herald is to be congratulated on its change of views, and the Territories are to be congratulated that the Herald has seen fit to take the right side for once; not that its influence would make any difference either one way or the other, but because its retreat from the position which it so frantically defended last fall shows that in this case the tail does not wag the dog—that sound public opinion in the Territories is so strong that even the Herald, frantic and foolish though it may be, is still compelled to submit itself to that opinion on important public questions. The question upon which the Herald, Regina Leader and Prince Albert Times took issue with the majority of the assembly was as to the responsibility of the members for the management of the public funds. The majority claimed that responsibility, the minority denied it and were supported in their course by the papers above mentioned, not with argument, for the case did not admit of it, but with abuse of their opponents; as though that would have any effect on a right minded public. The Herald now addresses parliament on the subject, taking the side that it then opposed. While it is very proper that parliament should be duly informed by the public press as well as by the Northwest members of parliament as to what the requirements of the Territories are in this matter, it is in Regina, by the members of the Territorial assembly, that the case for the Territories must be made out. If the Canadian government desires to revise the present system of local government in the Northwest so as to bring it more nearly in accord with the requirements of the country and the wishes of the people, it can best find out what those requirements and wishes are by consulting the accredited representatives of the people in the local assembly. It may take up the case as it stood at the last session of the late assembly and deal with it on that basis; but will be far more likely to wait for the new assembly, which will be elected this summer, to come into existence before undertaking to handle it. That assembly will be fresh from the people and will more truly and fully represent public opinion on this question in its latest phases than the late assembly. An agreement arrived at with it will be likely to be permanently and generally satisfactory, and therefore is most likely to be entered into.

If the Herald really desires what it so earnestly professes, namely that the local executive should be responsible to the people's representatives it will best secure that end by exerting itself to re-elect the men who in the late assembly took a firm stand for popular rights, and who therefore can best be depended upon to maintain those rights. If those men are re-elected the Ottawa govern-

ment will understand very clearly that the people of the Territories endorse their course and will therefore know the nature of the legislation that will be required to meet their views. If they are defeated, no matter though by men holding precisely the same views, it would be regarded and treated as a defeat of the principle of legislative control of the public funds for which they chiefly contended. The Herald is fond of shooting at long range. Giving directions as to what the parliament at Ottawa should do is a cheap way of showing sympathy with popular rights. If it expects to receive credit for taking the popular, and ultimately victorious side, let it enter the fight in a manly way, turn its guns on the people of Calgary and help to secure the re-election to the assembly of Calgary's two representatives who can be depended upon to stay with the people's rights.

IMMIGRATION.

So much is made in these days of the advantage of railway communication that it is often found after the railway has reached a certain point that the real advantage has been over-estimated. From all appearance this is not likely to be the case with Edmonton. Although the railroad is yet 100 miles away, and will not be completed to Edmonton for months, there has already been a surprising rush for land in this district, and still the immigration of the season has hardly commenced. Of all the regions from which there appears a good opportunity of securing the largest possible number of the class of people who will do best for themselves and for the country, Dakota is just now the choice. Some of the best men who have come in this season are from Dakota, more are on the way, and if reports are correct the Edmonton district stands higher in the estimation of Dakota people generally than any other part of the Northwest. They are the people we want; but Manitoba and other sections of the Territories appreciate their value as well as we do, and are putting forth more determined efforts to secure them with a greater measure of success. The Manitoba North Western railway company has been particularly energetic and wonderfully successful. With a country far inferior to the Edmonton district they have secured the location of a much larger number of Dakota people in North Eastern Assinibolia than have yet come to Edmonton. We can depend upon the assistance of the C. P. R. but that company is interested in every part of the Northwest as much as at Edmonton, and therefore if we want special assistance from the company we must make special efforts in our own behalf.

FORT SASKATCHEWAN.

Correspondence.

The closing dance given by the non-commissioned officers and men of "G" division N. W. M. Police, was held here in the division mess room on the evening of April 3rd. The room was completely filled, many of the guests coming from a considerable distance. The dance was thoroughly enjoyed up to early dawn, and all left with pleasant memories of mutual enjoyment and fellowship. The refreshments were ample and excellent, most—if not all—the credit being due to Mrs. Griesbach who kindly superintended the preparation. The company included Major and Mrs. Griesbach, Miss Griesbach, Miss Gertrude and Master Willie Griesbach, the Messrs. Tims, Mr. W. Ross, Mr. and Mrs. Turner, (Clover Bar), Mrs. C. Strang, (Edmonton), Mr. and Mrs. Price, Miss Mireau Mrs. Casault, Mr. and Mrs. Carscadden, Mr. and Mrs. Jackson, Mr. and Mrs. D. Lamoureux, etc., etc. Sgt. Major Flintoff, with his customary carefulness and discretion acted as general superintendent and all passed off satisfactorily. Constable Williams, Mr. Price, Jr. and Mr. Mireau, supplied the music effectively. Some idea of the forward position of Fort Saskatchewan will be seen in the list of dances given below:

IMMIGRATION.

L. A. Hamilton, land commissioner of the C. P. R., writes as follows, from Winnipeg under date of March 26th:

You will be interested in knowing that the indications are for a large immigration this season to the Edmonton District. Since my return from visiting you last fall, realizing what a fine territory you had to offer the settler, and all its natural advantages, have done a great deal towards advertising it. Numbers of delegates have as you know been sent free, to spy out the land. The reports of all of them have been without a single exception highly favorable. We are now preparing some special advertising matter relative to the Saskatchewan valley country for distribution in the United States, Ontario and Quebec. I am sorry that the statistics promised me of the last harvest have not been sent. All I have are clippings from the BULLETIN. If you have anything further of the kind I wish you would either publish them in your paper or send them on to me. Dakota is simply wild about your country and the only thing that keeps the farmers of that State from taking entire possession of your fair land is lack of money. It will pay your board of trade to treat such as cast in their lot with you well and I would advise them keeping track of where they locate so that this fall we may get their experiences for new advertising matter.

From a table published in a recent issue of the Manitoba Free Press it appears that Michigan is the banner Canadian state, with a Canadian population of 190,350 in 1890. Massachusetts comes next with 149,262. New York has 79,965. Nebraska 97,254. Minnesota 52,073. Maine 50,852. Dakota 42,627. Illinois 42,514. Wisconsin 37,470. New Hampshire 31,345. Oregon 31,876. California 26,850. Vermont 25,371. Iowa 24,905. Connecticut 19,638. Ohio 18,641. Kansas 18,201. Pennsylvania 15,036. Washington 13,434. Colorado 12,502. Missouri 10,716. Montana 8,810. Nevada 6,770. Wyoming 6,070. In all the states there are 1,090,441 Canadians. In Nevada an 8th of the people are Canadians, in Wyoming 10th, in Michigan and Nebraska an 11th in Dakota and New Hampshire a 12th. Canada evidently needs a new national policy and needs it badly.

The Calgary Herald publishes a three column article from the London Field on horse rearing in Southern Alberta, in which the opinion is given that the southern range country is the very best breeding ground for the most valuable horses required in the British market, and that the ranges are now being stocked with the right class of horses. There is very little doubt that the opinion expressed by the Field in regard to the peculiar capabilities of Southern Alberta are correct, and that for horse ranching it is unequalled in the world. The difficulties in the way of successful cattle ranching do not apply in the case of horses with anything like equal force and consequently even where cattle ranching has proven a partial failure horse ranching may prove a brilliant success.

The Fargo, N. D., Argus publishes the following extract from a letter received there from T. F. Woods, manager of the post office store at Bottineau: "The outlook at present for many farmers here is gloomy and distressing in the extreme. A great many have not a kernel of seed to sow, where, in some cases, they have as much as 200 acres ready for crop. If they don't get help from the government, or some other source, there will be at least 12,500 acres of cultivated land in this county lying idle this summer. Do you think that Mr. Mears will try to help the farmers out any by giving out seed wheat as he did here before?"

The severest snow storm known in Kansas for ten years blocked the railways on March 21.
